REMARKS

Applicant is submitting a Preliminary Amendment to the claims.

Claims 1-8 remain the same as originally filed.

Claims 9-16 are new claims that are based on the original disclosure, more specifically paragraph [0010].

Applicant respectfully requests that Applicant's name be corrected to Edwin Rivera, Applicant submits that the initial application along with all initially filed papers correctly spelled his name and that a typographical error was made by the transcriber of received material at the USPTO.

Furthermore, Applicant respectfully requests that the name of the invention be corrected to Method for Monitoring the Distribution Channel of a Prescription Drug, Applicant submits that the initial application along with all initially filed papers correctly spelled the title of the invention and that two typographical errors were made by the transcriber of received material at the USPTO. The errors are the misspelling of the words distribution and prescription.

Applicant respectfully requested that the Examiner accept the Preliminary Amendment for the above stated reasons.

Respectfully submitted,

By:
